

DISAPPEARING GHOSTS

Supplies:

- biodegradable packing peanuts
- clear glass/bowl
- room temperature water
- black sharpie

Process:

1. Decorate your biodegradable packing peanuts! We made ours into ghosts but you can decorate them however you like!
2. Fill your glass or bowl with room temperature water
3. Soak your packing peanuts in the water and watch them disappear! This could take a few minutes depending on what type of packing peanuts they are. If this is taking a long time, try using hot water.

Newer packing peanuts are made of biodegradable corn starch which means they break down faster!
